

Manifesto for Child Artists

Be your own person.

Be proud of yourself.
Be confident in your artwork.
Always do what feels right.
Follow your heart

Believe in what you think, see, imagine and feel.

Use your imagination and look at the world.
Be looking for ideas all the time, anywhere you go.
Look at the world with an open mind.

If you make a mistake, you don't need to erase.

You can try to incorporate it into your piece to make something beautiful.
Always do your best to overcome obstacles.
Creativity is a good thing. Never give up.
Try new things until you find your style and what you do best.

You can be creative but it takes hard work.

Put your mind to whatever you want to do.
Keep practicing.
Set goals; research your thoughts; use your brain.

Let it all out!

Express your creativity as often as possible.
By expressing how you feel, people will better understand you.
Enjoy and feel what you are painting or drawing.
Live every moment with great intensity.
Smile and have fun.

Keep up the good work for world peace!
